

## GOVERNOR (1977-1985 : MATHESON) [446]

### LEGISLATIVE BILL FILES, 1977-1984.

8 cu. ft. and 25 reels of microfilm

**DESCRIPTION:** This series contains copies of House and Senate bills and resolutions, as well as drafts, notes, and related correspondence from Governor Matheson's office. The Governor received copies of legislative bills in order to determine his own position on the issue and what his action on the bill would be, as well as to relay copies of many of the bills to the Attorney General for an opinion on the constitutionality of the bill. Most of the correspondence is generated by the legislature, the Attorney General's office, and the Governor's office. In addition, the Governor's legislative staff, including Emilie Charles, Administrative Assistant for Human Resources and Legislation, reviewed proposed bills and provided comments and recommendations to the Governor on certain pieces of legislation. This review process seems to have been formally established by 1981. Some constituent correspondence regarding controversial or sensitive bills is included in this series as well, as in 1983 with the Cable Television Programming Decency Act, S.B. 309. Bill transmission logs, which track the conveyance of the bill from one legislative chamber to the other and to the Governor's office, are also included in this series.

**ARRANGEMENT:** This series is arranged chronologically by year and legislative session, thereunder alphanumerically by type of bill (House Bill, House Resolution, Senate Bill, etc.) and number. Any general materials for that particular legislative session precede the specific bills for that session. Bill transmission logs follow the specific bills for that legislative session.

**RESEARCH NOTE:** Multiple bills are contained in each folder in this series. However, each bill is listed individually in the container list.

**RELATED RECORDS:** Bills passed by the legislature and signed by the governor appear in

Series 4076 , LEGISLATIVE BILLS. Senate and House WORKING BILLS, showing actions taken in the legislature, are found in Series 428 and Series 432 .

**PROCESSING NOTE:** This series will be microfilmed and the hard copy will be kept because of the intrinsic value of the papers. It was processed by Kira Robertson in September 2001.

**PREFERRED CITATION:** Cite the Utah State Archives and Records Service, the creating agency name, the series title, and the series number.
